A Thoughtless Druggist.

ONLY a thoughtless druggist would offer a preparation without the signature of Chas. H. Fletcher when Castoria is called for; the "delicate, faint and flickering light" that joins baby's life to its devoted parents being too sacred, to the self-respecting druggist, to be trifled with.

For over thirty years Mr. Fletcher has given, and still gives, his personal attention to the preparation of Castoria. It has won the confidence of mothers and physicians everywhere-never harmed the tiniest babe. This cannot be said of Imitations, Counterfeits and the "Just-as-good" rot.

The thoughtless druggist only offers the counterfeit because of a few pennies more profit. Any new preparation can be but an experiment, and they are experiments-mere guess work-irrespective of what their sponsors may say for them. It is experience of over thirty years, against wild and injudicious experiment.
